OWN CONTRIBUTIONS

CRAZY NEWS SAGA 2017-PRESENT

Being a non local ethnicity has pros and cons. The chances for lead roles in commercial productions are non-existent. Limited to sporadic supporting roles or cafe jobs, Leonidas decided to stop waiting for lead roles in commercial productions and started to build his own lead roles.

He started to explore *scriptwriting, video editing and music jamming* for his quirky projects.

**“ IF YOU WANT IT
YOU MUST BUILD IT ”**

He developed 2 characters: **Manfred Brushweek** and **Rafael Rapapoulos**: Crazy News is presented under the classical contradiction between two personages, one grumpy and one comical respectively. Being bold, Leonidas also produced a short film with those 2 characters: **Time is over**, a comical Sci-Fi. **IMPORTANT TO HIGHLIGHT** this own contribution is, as someone mentioned once, **"a one man army"** project. One person, one idea, one phone. The project is being filmed in selfie mode, and edited using kine master app thanks to its chroma key feature for the GSAE.

The latest episode, n°3, Christmas Special can be viewed:

MONOLOGUE

PERCEPTION OF ACTING - NOVEMBER 2017

Besides Time is over Leonidas also shared his personal perception of acting in Perception of Acting produced in November 2017:

His passion for acting and for film industry in general pushed him to start writing a serious script for a feature film with the intention to be brought to the big screen.
