

Who is Brianna? What can she provide to the scene?

Brianna's laughter is legendary, contagious and ever-changing. Enough smiles to go around! Hugs for everyone! She uses pure, loving rainbow energy to make friends everywhere she travels. She dances at stop lights with ALL the windows down; silly rap songs blasting. Her love for Mother Earth radiates from deep within. You may catch her picking up trash at the local park, starting a petition for animal equality, collecting water from fresh streams, using herbal medicines, practicing primitive skills, and sharing wisdom with everyone who enjoys an extensive conversation.

She dabbles with many passions. Enjoying coffee filled with honey, singing with full lung capacity as strangers laugh, cracking a joke, head stands rolling into summersaults, friendly games of volleyball, talking to herself out loud because she is happiest listening to her heart. Videos are made when Brianna is around. Pranks are initiated. Photos are taken. Scavenger hunts arranged. Christmas sweaters in July. Music is her gateway to expression. Her book is open, the pages are blank and there is plenty of room for fun!

She will look deep into your eyes; stare into your soul. She will find your strengths and praise you for them. She will ALWAYS listen and lend helping hands. Judgment is NON existent. Her heart is open and understanding. The universe blessed her with a quick ability to learn, then spread the knowledge. She is a human connector, bringing together strangers from all walks of life. Love is her gift to the world.

Her vision is a land of communities overflowing with love and light. All hands on deck. FREE food for all! Shelter for all! Water for all! Love for all!!! CHILDREN are understood, accepted and enjoyed. Their dreams and talents are showcased. Where one is weak, another is strong. Sharing strengths is Brianna's favorite past time. After all, positive energy keeps the world spinning.

I am Brianna. I have found myself making eternal connections with each passing moment. Happy tears freely flow as I meet other beautiful souls. This is only the beginning! Join my journey. We shall grow together.
