„Paul Hubweber’s masterful control of any timbral aspect of the instrument guarantees music that transcends the trombone itself to become a soulful expression...” Massimo Ricci

„There are few trombonists who can sustain interest for a full recording of solo free improvisations. Add Paul Hubweber’s name to the mix, as his thoughtful solos reverberate with an elasticity... „

Steven Loewy

Chapeau, Monsieur Hubweber !

Philippe Renaud | Improjazz

„...Hubweber’s excellent CD of trombone solos *Lürix & Paranoise* ...and the highlight of his three contributions (on *Rubbed + Blown*) would be the compact and furiously busy 1996“. Bananfish
