**THE ASTRONOT IS A TALE OF ONE MAN'S QUEST TO REACH THE STARS. IT'S 1969 AND DANIEL HAS FOLLOWED EVERY MISSION BY NASA. NOW IT'S TIME TO EMBARK ON HIS OWN.**

## THE ASTRONOT

How Daniel longed to touch the moon. With Sandy's help, he'd reach the stars. It was 1969 & America was embarking on the biggest adventure known to man with its voyage to the moon. Daniel too was pursuing the unknown; leaving the path of isolation he had traveled for so many years to embrace the love of another. The only question was would he be able maintain that road to glory or would he veer off course never to be seen again?

That was the challenge for *The Astronot*.

*The Astronot* is a feature film directed by Tim Cash of Far From Earth Films & features a soundtrack by singer-songwriter Pennan Brae. The film was shot in & about Central Oregon & takes place between 1941–1969.
