## ABOUT

“Acting is not just about making suitable visuals for a purpose. It’s about building a vision for generations.” The above philosophy of mine highlights my orientation towards futuristic possibilities.

I hold 24 years industry experience performing various roles in a collaborative workspace of acting along with 13 years experience of doing Indian and Greek theatre. More than 300 plays and 1000 shows across India. My key skills

are crafting concepts into a masterpiece, balancing creative freedom and showcasing on screen.

Looking for opportunities in the creative sector, I am eager to join a team driven agile creative body who believe in ideation and experiments.
