

# REBECCA MELVIN PHILLIPS

## FILMMAKER & CHOREOGRAPHY

### ABOUT BEX

I am a one-woman filmmaking machine with a love for the weird & wonderful, and a passion for making strange and beautiful films using experiential and Old Skool techniques. Alongside making short films under the name [EK!] Productions, I have also worked on other independent features and shorts, primarily in the Art Department. I moved from the North to the South West in 2019 and am looking to continue building my portfolio, and find equally kooky collaborators to create bold and exciting new work. I will be taking my first feature, 'The Medusa Box', into production 2021/22.

Practical Special Effects  
Production Design  
Prop Making  
Scale Modelling/Model Making  
Set Dressing  
Stop Frame Animation  
Stills/BTS Photography

### [EK!] PRODUCTIONS

[EK!] Productions began life as a multi-media dance company, Eklectika-Dance by Design, in 2004. The company produced site-specific work combining dance film, projection, electro-acoustic sound and live performance. The company gradually evolved into [EK!] Productions as my focus turned more specifically towards film. [EK!] Productions, has so far, created music video, short film, experimental film, animation and dance film. Most recently, two of my short films received festival laurels in 2020. To view my film reel, and explore my filmography in more detail, head to my website, [itsbyek.com](http://itsbyek.com)
