PERSONAL STATEMENT

As a Recent Graduate studying Television Production, I'm a self and group motivated and creative person, working well with others to collaborate and turn people's ideas into high quality films professionally. I'm skilled in the Creative Cloud Suite and am multi-skilled from Multi-Camera Studio Production to Video Editing to On Location Filming and Broadcast and am always open to learning new skills, allowing my library of skills to expand with my work flow through future learning and feedback from my clients and colleagues.

I'm a big team player, motivated to help others and assist in production by taking on whichever roles are needed to accomplish the goals set out by the film or project to the maximum quality. I'm able to work through stressful situations and work under pressure to deadlines arranged between the team and the client we're working for, helping to maintain healthy communication lines until the projects completion so our client always knows what is happening and where we're at in Production.

EDUCATION

SOUTHAMPTON SOLENT UNIVERSITY

BA(Hons) Television Studio Production – 2:1 **2018-2021**

Industry Accredited Production Course

Whilst at University, I acted as President and was appointed Vice President of the Solent eSports Society.

This involved a variety of different tasks from talking to companies professionally, arranging sponsors and deals for events, organizing events and filling in risk assessments and running live streams for events.
