(913) 309-3423

Curriculum Vitae

*My professional background is as a [Research Scientist](#) affiliated with the **University of Kansas** and the **Union Center for Cultural and Environmental Research** in conceptual media development, (programing/exhibits/environment construction).*

Celebrating [minimalism](#), [lateral thinking](#), and pushing the boundaries of content and the space it is viewed within. I enjoy working with those of varied backgrounds, abilities, and disciplines.

My programs and media is a choreographed [collage](#) of [brutal](#), [industrial](#) sound, layered over the deep pop visuals of street art, classical portraiture and landscape. It is reminiscent of the honesty of frequency and integrity of [musique concrète](#) from the 1950's, particularly [Karlheinz Stockhausen's](#) [Gesang der Jünglinge](#), and the work of Philip Glass, Kristina Kubsich, Carla Scaletti, and Brian Eno.

I participate with **BTG fundraiser** at **Children's Mercy Hospital** neurological research operating in Kansas City, **American Children's Rights**, **Civil Rights**, **Human Rights**, and **Disability Rights**; Diagnosed with TBI (traumatic brain injury) and CTE (chronic traumatic encephalopathy, a degenerative brain disorder) in 2016.

Trusting in my abilities to efficiently execute goals by effective communication, I am able to combine a number of priorities into a coherent whole and communicate it to a population.

Patrick di Santo
