Linkedin: **@Richard Taylor**

*"I grew up in the Scottish Borders and studied my Bachelors in Outdoor Leadership and instruction at the university of Central Lancashire in Penrith. Having successfully graduated in 2006, the next natural step for me was to explore the European alps. It was in this phase of my life i discovered videography and film. Having traveled all over the world using my passion for outdoor sports as my medium, i've learnt how to enjoy the process of telling other peoples stories through videography and have discovered my true passion within 'film'".*
