## ABOUT ME

Hello, Im Sophie from Oxford!

I'm a TV host, producer and content creator with a passion for storytelling and connecting with audiences. Recently I co-created and host Just Between Us, the world's first live interactive talk show on Amazon.

I love blending creativity with innovation to shake up traditional formats.

With expertise in Live Hosting , live shopping hosting, content creation, Social Media and production, I'm all about delivering content that's fresh, fun, and truly connects with people—whether I'm in front of or behind the camera.
