labour

Movies are my forever love.

At age 16, I wrote and directed my first short films and music videos.

I became an actor, a photographer, worked as cameraman, an editor, creative producer, and at some point ended up founding and co-leading a production company within a marketing agency.

With roots in Peru and Scotland, I grew up as a late 80's child in the West-German countryside, travelling a lot, learning even more.

I lived and worked in Washington D.C., Berlin, Los Angeles and Hamburg.

In 2024, I became an independent screenwriter and director.
I love telling stories and animation.
