◆ LOGLINE

A young woman's dream of becoming an astronaut is nearly lost to tradition, until an unexpected force helps her break barriers and reach the stars: her own family.

◆ SHORT SYNOPSIS

Dreams tells the heartfelt journey of a young woman who aspires to become an astronaut. Just as she graduates, her parents arrange her marriage, leaving her disheartened. But with the unwavering support of her husband and in-laws, she defies expectations and overcomes every obstacle to achieve her dream.

◆ FULL SYNOPSIS

Dreams follows the story of a passionate young woman who dreams of becoming an astronaut. Her ambitions take a back seat when her parents arrange her marriage right after graduation. Emotionally defeated, she loses sight of her goals—until an unexpected twist: her husband and in-laws, recognizing her potential, encourage her to pursue her dream. With renewed courage, she sets off to achieve what once felt impossible. This AI-generated Tamil short film is a fusion of emotion, innovation, and storytelling, crafted entirely using artificial intelligence tools—from visuals to music and acting.

Story by: Kodthay

Visuals, Voice & Characters: 100% AI-generated

Edited with: Filmora 13 on i5 PC

◆ DIRECTOR'S STATEMENT

Dreams is a personal exploration of how technology can amplify human stories. The film tells the story of a woman who, despite societal pressures, pursues her dream of becoming an astronaut with the support of her family. Inspired by the strong women in my life, this film reflects the power of perseverance, love, balance and focus, in achieving one's goals. By blending AI-generated elements with traditional storytelling, I hope to push the boundaries of filmmaking and inspire others to chase their *dreams*.

◆ AI & PRODUCTION NOTES

- Entire film generated using AI tools (KlingA.i, TopMediAI, Eleven Labs)
