Artist Statement / Profile

I am Febe CHU (Pak Wing), a professional photographer and filmmaker based in Paris, originally from Hong Kong. With over 17 years of experience in photography, I have earned numerous awards in wedding and portrait competitions in Hong Kong.

My short film, *LGBT LOVE, FREEDOM be Ourselves* (2025), directed and produced in Paris, has received international acclaim with multiple awards, nominations, and festival selections.

Currently, I am developing projects that blend short film, photography, and artificial intelligence. My work explores themes of love, freedom, femininity, nature, and the human experience — embracing concepts such as karma, soul, philosophy, and the subconscious. Through poetic visual storytelling, I aim to reconnect with multiple layers of consciousness and resonate with the world.
