FADE OUT

#### EPILOGUE

HAHN LI was born with a Chronic Psychological disorder and  
manic depression disorder. It affected his mental state of  
mind, emotionally unstable. It progressed as he got older. A  
Mental Illness, without a strong support and untreated. His  
psychotic behavior was disconnected with reality. Perhaps he  
predicted his life cut short. Surreal, a cruel, and twisted  
faith and a fatal ending.

**THE END.**
