About Me

I'm a student filmmaker based on the Gold Coast who loves collaborating with performers to tell and create impactful stories. My work has been selected and awarded at festivals including Milan, Berlin and Indiana, and I completed a filmmaking course at the New York Film Academy. I'm hands-on across directing and editing, enjoy building creative communities, and focus on projects that connect with audiences. I shine in communication skills, organizing film shoots and leading other creators in my path/
