Freelance, ON & AB — Graphic Designer

January 2016 - Present

I am a self-taught Graphic Designer who started with Adobe Creative Express before moving to Canva, creating all of my work from scratch without using templates or AI. I believe great design comes from creativity, visual communication skills, colour theory, and a strong understanding of design principles rather than the tools alone. My portfolio includes album covers, logos, intro videos, movie posters, social media thumbnails, marketing materials, banners, storefront displays, and floor plans, with designs adapted for platforms such as Apple Music, YouTube, Instagram, LinkedIn, IMDb, and Facebook.

Freelance, ON & AB — Visual Artist

January 2013 - Present

I am a self-taught visual artist who later pursued formal training through TDChristian High School and Richmond Hill Art School. While I have studied art history, oil painting, and traditional techniques, my passion lies in abstract art, particularly using ink, watercolour, and acrylic. I developed a distinctive style of manipulating ink on photo paper and watercolour on canvas by blowing the medium with a straw, often incorporating acrylic textures with a spatula. My artistic background, combined with training as both a performer and visual artist, has shaped my intuitive, reflective, and inquiry-based approach to teaching, directing, and producing. I began my artistic journey with fashion illustration and continue to create illustrations using Copic markers and mixed-media techniques.
