About me

I am attending the best art school in Budapest, the **Secondary School of Visual and Applied Arts „Kisképző",** currently preparing for my additional, professional year to wrap up my studies. Though my dream is to pursue filmmaking and establish myself in the industry. I have had longer projects in the field of graphic design, but I seize every chance that grants me opportunity to work on set. I compensate for my lack of experience with my enthusiasm, my work ethic and oppenness to new possibilities.
