

Dear Director of Admissions & Review Committee,

It is with genuine enthusiasm and appreciation that the Humanity Rising Film Festival (HRFF) announces filmmaker Harmony Reign Hargis and her project, "Covid-19 - A Short Documentary" as an Honorable Mention recipient in the Spring 2026 edition of HRFF. Her unique vision and meaningful topic exploration created a film focused on one of the most monumental times in recent human history. As a result, HRFF highly recommends Harmony for further studies as her talents and wisdom will serve as significant contributions to your program.

As the Director of the Humanity Rising Film Festival, I have the opportunity to view hundreds of short films on an annual basis. "Covid-19 - A Short Documentary" stood out as a significant film both to our judging committee and the audience members. As Harmony pursues her post-secondary education, her talents will only multiply and her skill set will reflect growing wisdom both in cinema and in life.

Please connect with me at any time for further information as I will avidly vouch for Harmony's acceptance into your esteemed program. HRFF recommends her without reservation and knows she will thrive when provided with ample opportunities.

Thank you again.

My Best,

Rebecca Reitz - HRFF Film Festival Director
