To Whom It May Concern.

I am pleased and excited to be submitting my completed short film to selected Film Festivals around the world—including yours.

This work was produce over the course of two years from 2014-2015. It follows my partners and my decision to leave Hamilton, Ontario to parts unknown in search of a new home. From Mexico, across the USA then up to Canada's far north this is a road trip movie that documents the film maker's headspace as the richest landscape of all.

I am including this form cover letter to highlight the following aspects of this production:

- This is an independent work. I am a visual artist and this is my first film.
- This film had no budget and is entirely composed of stills from a DSLR and iPhone 6.
- Though it is narrative, non-fiction and documentary in nature the work is experimental in its structure. I did not know what this production would be until I worked with the collected media at the end of the process. The narration was the last element produced and was largely improvised after reflecting on this journey.
- Creative non-fiction writing performed as a monologue layered over five video art works comprise this eight minute film.

Thank you for considering my submission. Please do not hesitate to contact me with any questions or comments.

Yours Truly.
