Finish all your missions
to find out the Truth

```
13:27 <@Sad_Monkey> You can launch your missions with the Top Menu or by typing mission01, mission02 etc. You can find the available Commands by typing help or by using the Top Menu.
13:28 <@Sad_Monkey> I let you discover the monkeyOS platform by yourself.
13:28 <@Sad_Monkey> See you soon PocketWorld.
13:28 <@PocketWorld> info
[root@localhost] info:
The Monkey Society is a connected platform, created by Sad_Monkey in 2009. It uses the Darknet Network, an underground network where nobody can spy on you and where you can interact anonymously.
Every member of the Monkey Society must interact in the shadow and they have to protect their Identity and the one of the other Members.
Not following this unique rule will be severely reprimanded.
monkeyOS, MonkeySociety are developed by Sad_Monkey, with the help of NPLV et IHCOM.
Watch The Season 1 of Io.2016.

Sad_Monkey

The Master Piece of the Io Universe is inspired by Cyber-Hacktivists like Anonymous, Edward Snowden or Julian Assange.

So, it was logical to use Social Medias like Youtube, Twitter, Blogs, not only to make the Character more real but also to tell One coherent story in One immersive universe. *Propaganda-Video Like on Youtube, a Sad_Monkey Twitter Account, Fan Base Blogs on Tumblr etc.*

Io Tomorrow

1. Two More Seasons

The Story of Io is already written to take place in Three Seasons. One is already broadcasted, two are in Pre-Prod.

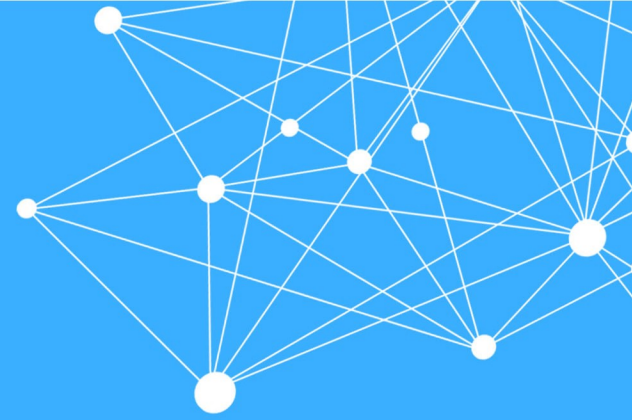

2. More Transmedia

Teenagers feedback are very good ! They adored the Monkey Society Game and the mysteries that surround the Io Universe.

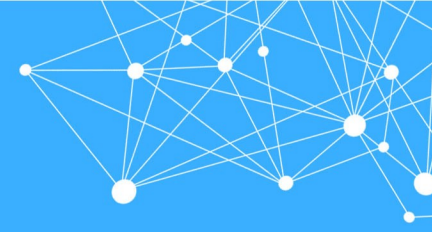

3. Exploring other Media

There are so much interesting characters, mysteries, a proper mythology in the Io Universe :projects of comic-books, novels, video games are seriously possible, if not necessary.
