# THE WIND

*"You'll never know who might blow into town!"*

A brother and sister, Roy and Honey, are living their daily routines in a old farm house overlooking the city. After the beginning of the end of civilization, a great wind has been blowing for the last seven years. People, water, and food are scarce until a stranger appears one day.

### RUBY BULLOCK-SPITZ (HONEY)

At age 4, Ruby's ballet group was asked to portray the troubles in a community theatre production of Pandora's Box. After her first performance as "Deceit" Ruby knew that her heart belonged to the craft and has spent her life since performing on stage, film and television. This is her first foray into writing and she is very excited about using her industry experience to bring this character and her story to life! The fulfillment of Ruby's dreams is only possible with the amazing love and support of her biggest fans: her husband, Tony and her son, Jasper.

Randy has a passion for story telling that began at the age of seven when he would sneak out of the house and go sit at the back of the drive in theater and watch movies. Soon he turned to writing and acting out his stories with friends. Randy's mantra is "It takes a whole village to make a Short or Feature Film". He has been fortunate enough to have great mentorship and to be able to help produce Film's for others that share his passion. Randy continues to write and to get his friends to act out his stories.
