

## **My Little Brother script**

### **Anthony Bennett**

Narration:

Hello. This is my little brother, he is three  
He's very good at using the ipad  
He used to watch me do games and things when he was a baby  
Now he knows more than I do and does all kind of things on it  
I am good at remembering things

This is my Nanna and Poppa, they are much older  
I think my Poppa is very old, he might be..... a hundred or something  
But he knows lots of things and reads a big newspaper every day  
They have a bigger computer, it has a flip screen with buttons  
I'm not sure what they use it for, I think they go on the internet for Facebook  
That's for big people

Someone told me once that Facebook is dangerous, a bit like a fire  
I'm not sure what they mean by that  
My Mummy and Daddy told me never to play with fire or matches  
Because it can spread very quickly  
and you never know what it will do next

The bad people on the internet are like that

They make a new fire every five seconds somewhere in the world  
Every five seconds,  
every single day,  
that sounds like a lot doesn't it?

I just thought.....imagine if your house lived on the internet?  
Someone would be trying to break in all the time  
Someone else might try and take your keys so you can't get in  
or trick you to open the door  
They might knock on your door and run away and hide

or just pretend to know you, like a new friend on Facebook  
Who are your Facebook friends?  
Do you really know them all?  
You might go on holiday and find your house has nothing in it  
or not even exist!  
Or...some people just want to burn your house down every five  
seconds!

That's not good  
I think me and my little brother should live in a treehouse or something

So this is why Nanna and Poppa don't use the internet much!

I think the fires on the internet get started because people trust other people  
.....or they are just too noseey  
I get sent to my room if I'm naughty, so they should too  
I think it's called.....prison..... or something like that

That's it!  
If more bad people were in prison then we would have less fires!

One time my birthday was cancelled because I was very naughty  
I was sad but then I thought I could just buy some presents on the ipad  
I've seen my Mummy do it, she uses our address and some numbers from a  
card thing  
They are easy to remember  
I also know the one where she puts the card in a machine

It's amazing what you can buy on the internet these days!

One evening we had a power cut  
All the lights in our street went out  
My little brother didn't like that  
He is scared of the dark!

I wonder if the bad people on the internet can do that?

Maybe they could switch off the power to a whole city or worse

So why am I telling you all this?

Where we live we have a big sleeping fire near us  
It has been hiding for a long, long time and is waiting to come out one day  
I've read a lot of books about it

Something strange happened last week - I'm not sure if it was a dream or not

My little brother found out how to control a real space satellite on the ipad  
It was amazing  
We could move it up there in space, and spin it around and things  
But then it flew into another satellite and broke it!  
And the country that owned the other satellite were very, very angry

They were doing some funny testing  
Which they are not supposed to do  
And so they got angry and fired at our satellite,  
it came crashing down towards the earth,  
It was heading for our mountain,  
and made the biggest bang I have ever heard

But then things got worse

The big sleeping fire woke up!  
It rose up and roared out the top  
Melting and burning everything in its path

We all got in the car and went as far away as we could  
It was all very scary

We never expect these things to happen to us, do we?

Maybe this is a sign not to do bad things,

because you never know when the big sleeping fire will wake up one day,

and maybe.....

my little brother shouldn't be on the ipad so much!
