

A VISUAL GUIDE TO
NOWHERE
THE CINEMATIC VIRTUAL REALITY EXPERIENCE

Need directions?

Am I going to watch “Nowhere” with a Gear VR headset, or with Google Cardboard?

Gear VR.

Google Cardboard.

Neither. I think I'll watch “Nowhere” in a browser without a headset or headphones.

Do I have a smartphone compatible with Gear VR?

Yes

No

Do I have a smartphone compatible with Google Cardboard?

No

Yes

Borrow one.

Is my smartphone updated and sufficiently charged?

Yes

No

Make it so.

Stop! Abort! Immediately change your mind! VR films are designed to invite viewers to experience space. Without a headset or headphones, VR films are reduced to insignificance...

Have I immediately changed my mind?

Yes

No

Phew!

Gear VR

 **Cardboard**

Upload the .mp4-file from your computer onto your phone or download the file directly with your phone.

Install the official “Oculus video app” from Oculus and run necessary updates.

Insert your phone into your Gear VR headset.

Connect your phone to a broadband WiFi-network.

Open the YouTube app and search for “Nowhere VR Experience”.

Select the VR-option by clicking on the goggles-icon in the lower right corner.

Insert your phone into the cardboard.

Plug the jack of your headphones into your phone.

So far, so good?

Am I sitting down?

Yes

No

Take a seat.

Yes

No

Shake your fist at your phone and scream as loudly as you can.

Or check:
