

MUNKEY IN THE CITY Actor/Executive Producer Biography and Filmography

Biography

KENNY LEU embodies the Asian-American experience. Growing up in a modest immigrant household, Kenny aspired to the American dream: making his fortune, and settling down to have a family. After earning a Mechanical Engineering degree from UC Berkeley, at 27 he realized that he could give back the most by diving headlong into representing Asian Americans on TV & film. He soon started work as a professional actor.

He is best known for playing the inspiring, charming hero, but many enjoy him as the romantic love interest. He has earned many awards and accolades for his work, but for the big stuff, he has worked on Independence Day: Resurgence (2016), and on TV shows like NCIS (2015), The Player (2015), Zoo (2015), Scream: The TV Series (2015), and more recently, catch him in miniseries The Long Road Home premiering in November on the National Geographic Channel.
