When you detox in Serbia, you eat, drink, and enjoy the music.

The greatest brass band festival in Europe is in Guca. Paradoxically, it is a backwoods village located in the very heart of Serbia but beats with passion and rhythm that unites the whole world. The whole region is a unique place where East meets the West and North borders with the South

Director's statement

GUCA: Serbian Detox shares the trip to the heart of Serbia by placing you at the centre of the action. In this documentary you will experience the region and this event at first hand, as you were virtually there.
