## Frostbitten & love smitten!

It's the bitterly cold Winter of 1979 as Rusty types away in his trailer. His fiancé had just left him at the alter and in response, Rusty uproots himself from Minnesota and relocates to the middle of nowhere. He's not completely alone...for Alice, whom he refuses to accept has left his side, stands nearby in the form of a mannequin. Rusty's new utopia is disturbed by Babs, Ruth-Ann & Fran; three local bullies who've developed a jealous streak towards Alice. Their reconnaissance mission begins & the snowballs fly as the temperature plummets '2 Below 0'!
