WHICH SEX THE SUN THE MOON AND YOU

which sex the sun the moon which sex are you

in your first memories what was it

like

even before

you knew by heart those words

the wind kept whispering to you

naming your world

forever and ever until you die

like the gods

gorgeous

in a

never lasting

last

breath

there will have been sexes

before

mom and dad dad and mom

stars

drifters

meteorites false memories

and you and you and you and so forth

the milky way

and mom and mom and mom

and mom

the one and only

stone and milk

what

do you really know and

where do you come from

sexy

stranger

how

what which which kind

of strange sex

wonder

apart from gender

which sex is space and which space is time

would you kindly ask yourself

because it's time

which sex the sun the moon which sex were you

and you

if you go further

inside out

to

shapes

of sounds

to cosmic noise

renewed

then

which sex the sun the moon which sex are you

which sex

the son

daughter

drifter

breathe
