

The Music of the Chromosome

Paolo Federici

You can say a thing is special
For whatever not so common.
Bigger value, worth behavior
Have a really rare like you.

Look: the music can be changing
And a symphony will shine
Variation can be driving
Magic music inside deep

There is positive a side
When you come to very rare
Surely you're not alone
Share your life along with me

Sing a song maybe this one
Feel the joy your heart inside
Are you valued very special
Are you really rare for me.
