21st CENTURY PUNK ROCK VOLUME 2

A documentary film series about punk rock every decade after the turn of the century

LOS ANGELES, CA, August 31st, 2020 - 21st Century Punk Rock Volume 2 is the second full length feature film in the series documenting punk rock every decade after the turn of the century. Volume 1 snapshots the punk rock scene from 2000 – 2010. Volume 2 snapshots the punk rock scene between 2010 – 2020 featuring live performances and interviews of Angelic Upstarts, The Oi! Scouts, Informal Society, Dead 77, Starving Wolves, The Virus, The Unseen, The Bad Engrish, Los Kung Fu Monkeys, Acidez, Corrupted Youth, Resilience, Thulsa Doom, The P.I.N.s, A Global Threat, Evacuate, and special guests including Angela Boatwright (Vans), and Wattie (The Exploited). In this second installment, you'll see some familiar bands from Volume 1 with a different band name and learn why

bands of the 1990s did not appear (or exist) in Volume 1 but appear in Volume 2. The next film in the series will be a documentary about punk rock between 2020 – 2030.

21st Century Punk Rock strives to capture the most prominent punk rock bands and people involved in the punk rock scene between 2010 – 2020 by featuring performances and interviews in a true punk rock style of filming and interviewing. Several of the interviews were featured on The Punk Rock Demonstration radio show. The film shows how punk rock has evolved through the decade and how the people and bands in the scene have also evolved. Presented in the film is also a resurgence of several 1990's bands that did not survive the 2000's but come back together after 2010 to reconstruct their band and the reasons behind it. Likewise, bands featured in Volume 1 that broke up in the 2000's reform to become new bands after 2010 are featured in Volume 2. 21st Century Punk Rock was filmed in and around Los Angeles, California and in Las Vegas, Nevada.

21st Century Punk Rock Volume 2
