Dear esteemed judges:

Thank you for considering our micro-short film, "**The Power of Christ**". In 2020, our first claymation film ("*Sticks & Stones: A Story of David*") received seven awards, two nominations, and was accepted in 11 festivals. Despite recent pandemic lockdowns, the call to glorify Jesus Christ's victory over evil intensified and I began the process of sculpting, lighting, shooting, and editing this New Testament project by myself. It is my hope that you enjoy the cinematography and in-camera special effects.

Please note that our FilmFreeway project page also contains this micro-short's press kit containing a biography, frequently asked questions, etc. In closing, we hope you enjoy our film and thank you again for viewing!

With warmest regards,

Nate Carroll

*Nate Carroll Films prides itself on making entertaining, independent films at exceptionally low budgets.*
