# OBJECTIVE

Psychopaths are social predators who charm, manipulate and ruthlessly plow their way through life, living a broad trail of broken hearths, shattered expectations without the slightest sense of guilt or regret.

The professional psychopath's ruthlessness and cunning gives them a distinct advantage over any no psychopath rival. They make charismatic leaders manipulating and brainwashing the naive, vulnerable, uneducated, or mentally weak.

The malevolent psychopath is the most dangerous; however, it is the Professional Psychopath that is the most destructive. While the victims of the former can range in the dozens, the victims of the professional psychopath can run into the tens of millions.
