

What if the Kardashians were born in a rural Rajasthan family and lived in Baroda on a budget?

6 Siblings
6 Problems
1 day.

Together they run an online thrift store called DURTY FITS, while each hustles away individually to give some shape and meaning to their lives.

It's a film about people in 20's, made by people in their 20's.

We shot the entire film on iPhone 13 Pro Max in 4K, in real locations with practical/natural lights, guerilla-style, taking inspiration from Sean Baker.
