## LOGLINE

Enter Your Name is a surreal fantasy film that serves as an allegory to the experiences of a pre-transition trans person, with body horror elements to allude to the complex emotions and inner turmoil that come with that.

## SYNOPSIS

Null, a mute girl, wakes up with no idea who or where she is. With nothing but a sword who speaks for her, she travels across perilous lands in search of answers. Along the way she must face a nightmarish fear.

# ABOUT ENTER YOUR NAME

Enter Your Name was born from my own tastes in media, and a desire to express an aspect of my life. I am a trans woman from a deeply conservative family, in rural Mississippi, and that one thing has shaped every aspect of how I experience and perceive the world. I've always clung to characters and stories where the main character is alone, fighting against an unsurmountable threat and struggles onwards despite the odds.

Living through spite and determination.

I'd always felt that was me - clawing, scraping, and fighting to get anywhere, and I felt that struggle defined me. When I conceptualized Enter Your Name, I wanted to use it as a way to express that - The complicated feelings I had before I accepted I was trans, and the deep, mortal fear of trying to see that in the environment I was living in. The world of Enter Your Name is cold, lonely, and empty. It's covered in kudzu, an invasive vine that blankets parts of the south, and represented for me, the beautiful but suffocating nature of the place I call home. With this film I wanted to show people that trans people come from all over, and the internal struggles they have to deal with.
