## 創作理念 WHY

電影「空巢」不強調生命的無常，而是以「無常」來探討家庭情感的愛與價值觀！  
「多回家看看家中年邁的父母，重現傳統孝道的精神！」  
台灣國內罹患失智人口數高達51.6萬人，其中65歲以上的老人人口數為50.2萬人，意即失智症將帶給國內至少30多萬個家庭沉重負擔，衍生的家庭照護問題也須重視。人免不了生老病死，不論貧富貴賤，每個家庭都會有子女外出讀書、工作、婚嫁後，遇到空巢期，而「退休症候群」時常會讓父母覺得自己是累贅、不被兒女需要。若再遇到老年失智，對空巢期的老人來說，是最大的不幸和隱憂，而擔任照顧者的另一半，身心理遭受的失落和煎熬是無法言喻...。呈現空巢家庭下，年輕人的無奈、長者的孤寂、夫妻借老的陪伴與照護，希望能喚回二代之間對家庭價值的反思與重視。

## WHY

Many families experience the phenomenon of "empty nests" after their children study abroad, start a career, or get married. Old couples are mostly accompanied and dependent on each other in the second half of their lives. However, when the other half suffers from disease, many families have neglected the loneliness and helpless emotions of the caregiving partner. In addition to that, 2022 World Alzheimer Report by ADI stated that there is more than 50 million people with dementia worldwide. Director Yoko devoted her movie "Alone" to bring awareness to this phenomenon and urge the public to extend more care to families with dementia patients and the caregiving parents. She hopes to promote the value of a supportive family which will encourage the younger generation to provide more care towards their family.
