

LAST TAXI

It is a time when people are more individualized and heartless, and we can not **console each other**. Would the day come when artificial intelligence could comfort us? **The AI** who could not feel a human heart and **the ghosts** whose life as a human has already gone have met and **talked about lives**. Through the eyes of a non-human, the story explores the meanings of human lives.

<CHARACTER>

Taxi Driver. 'Anthropomorphized, Automatic Driving A.I.'

'Artificial intelligence who could not feel human emotions starts to understand the emotions after meet someone'

In the highly mechanized civilization, although all cars self-driven by automatic driving artificial intelligence, people always look for humane things. That is why the android taxi driver has created, and people keep reserving him to see its humanlike figure and expression. Although his expression realistic enough to make people misunderstand, he does not understand the true human emotion but just mimics their expressions.

One day, the update error has caused, then the android taxi driver starts to see ghosts. Ghosts keep whining about their story to the android taxi driver because he treats them as humans. Then the android taxi driver starts to know the deep inside of human beings...

Young Lady Ghost. 'Age 25, the flower has lost before it blooms'

'The ghost who could not accept her death because she thought her life as an adult just had begun and it was so unexpected.'

Because her parents had passed away when she was young, once she thought she wanted to die to follow them. But suddenly she had died. It was so unexpected.

The young lady ghost could not take the fact she had died and kept following her ex-boyfriend. But now he is dating her best friend and wants to marry her. What nonsense is this? How could she not be crazy in this situation?

It is not only so resented to be dead at this young age, but also watching them getting married is not acceptable.

Suicided ghost because of school violence

'A victim student who committed suicide because of exhaustion from school violence. But after he died, he feels being a ghost seems worthy enough! But later on, he realized that bullying the perpetrator is not the way to relieve his resentment.'

Famous noodle restaurant owner ghost who had died suddenly because of cancer

'Though I worked all my life without rest, why can't I take my money with me? Okay, then I will spend it all before I leave for heaven! Have you heard of Ghost FLEX SWAG?'

<SYNOPSIS>

An android taxi driver who has the same appearance as a human is learning human expression and emotion. One day, while the update process, the sudden error has caused and the android taxi driver starts to see ghosts. He mistook ghosts as human and treats them as customers. One day he got a reservation of young lovers, a young lady ghost ride on the taxi with them...
