GENRE: Drama and fantasy

LENGTH: 3:00 minutes

ASPECT RATIO: DCI 2K - 2048x1080 (1.90)

LOGLINE

There's something fishy in this cat cafe...

LONG SYNOPSIS

On a rainy night, a girl finds and enters a new cat-themed cafe, where its eccentric owner, face hidden by a cat mask, starts treating her to delicious food while acting in a sinister and odd manner.

The sweets are delicious, but as she eats them, the girl starts to gradually turn into a cat. When she finally realizes, she tries to escape, but it's too late – the owner easily catches her as she finally completes her transformation. She'll stay captive in this cat cafe, forever trapped, with the rest of the cats, once other unsuspecting clients of this mysterious cafe.

ABOUT THE SHORT FILM

“Cat-Puccino” is a 2D animated short film co-directed and created by 6 people. It was financed by the prize awarded by RNE (RTVE) and SGAE Foundation after winning the XIII RNE Short Film Contest (First Prize and Audience Prize) with the 2D animated short film “White Butterflies”, which was the first short film of several of the co-directors of “Cat-Puccino”.

Full names of the co-directors:

Jara García de Viedma Pérez, Shuangshuang “Claudia” Yu, Misha Navarro Castellano, Gloria Stefania Battaglia Galán, Victoria Meltzer Marina, Irene García Menéndez

ABOUT THE CO-DIRECTORS

The six co-directors graduated together in 2022, having completed a four-year 2D Animation Degree in the same class. “Cat-Puccino” is the second short film they have made. Their first short films were made and finished in the last two years of university as graduation short films.

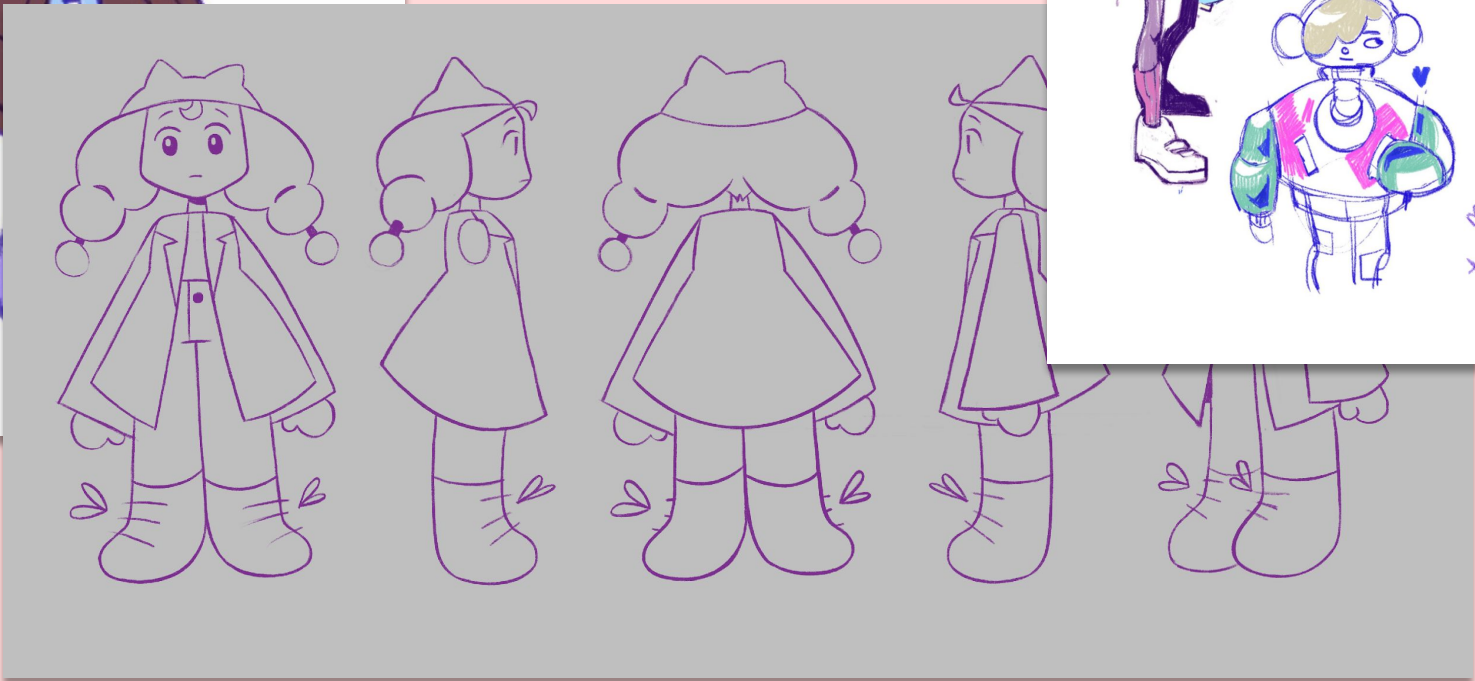

Two student short films were made in their class titled “White Butterflies” and “Lucy.” Jara, Claudia, Misha, Gloria and Victoria worked together on “White Butterflies” and Irene worked on “Lucy.” Through the two shorts that each one made, they have each discovered the path they want to follow, whether as animators, storyboard artists, background and color artists, character designers, etc.
