

Dear Festival Programmer,

Please disregard the title of the film on the Poster and Title Screen of the vimeo screener. After a lot of thought and outside consultation from someone in the business longer than I, I have decided to change the original name from "I Dreamed I Was Naked and the World Turned Upside Down" to simply "Jacob's Ladder". I believe this change will help programmers make a better decision on whether or not to select my film. Hopefully this change makes sense and gives the film a better chance. Thank you for your consideration and understanding.

Donovan Wilson  
Director
