To The Arts Grants Evaluators,

This letter is written to show BFO Toronto's support for the completion Ipek Ertan's short film *Memory of Water* and her arts grant applications to do so. BFO Toronto's mission is to inspire hope and healing in grieving individuals so they may better process and cope with the death of a loved one. Thus, we support Ipek in her healing journey as she processes her grief through media arts and creates space for others to share their grief as well through community. BFO Toronto would be interested in screening her short film as support material for those who are grieving.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah Garcia", with a long horizontal flourish extending to the right.

Sarah Garcia
Executive Director
Bereaved Families of Ontario
