

# An abandoned hotel in a hot spring resort.

The moment he stepped inside in search of his missing brother...

An abandoned hotel stands alone in a hot spring town in Shikoku. This place was once bustling, but now silence reigns, with no sign of people around.

The Ghost Spotters visit the hotel in search of their brother, who has not been heard from since infiltrating the hotel. The Ghost Spotters are a search team of four fellow occult YouTubers: Mami (Kiyohara Rio), Yoshiko (Ohno Mai), Akira (Kutsuna Tomotoshi), and Taichi (Saito Sadahiko). Each of them has a special skill, which was supposed to be put to good use in this search.

However, from the moment they set foot in the hotel, their fate takes a dark turn. It turns out to be a haunted spot where unexpectedly powerful evil spirits roam. They encounter supernatural phenomena one after another, and continue to search for their brother, fearful as they are. However, one by one, the members are consumed by the hotel's curse. The price of reuniting with their brother and escaping the hotel is high.

Gentle horror that's gentle on the soul

**SDGs-focused film production, costumes and props made from recycled materials!!**

The film is set in Nibukawa Onsen, Imabari City, Ehime Prefecture. Using a closed hotel that will be demolished after filming, and with the cooperation of a recycling shop operator, the filmmakers took on the challenge of making a film that thoroughly incorporates the ideas of the SDGs, such as using recycled materials for costumes and props. The cast and staff all shared their awareness of the SDGs and worked together to make the film.
