Director's Statement

Although this project took much longer to complete than originally hoped, I ultimately believe this delay was to the benefit of the film. Conceived shortly before the beginning of covid, the film had time to develop and mature due to the lockdowns and natural delays post pandemic.

After finishing my grad school thesis film, I was looking to tackle a project that was smaller in scope, both from a narrative and character standpoint. Something that allowed me to focus more on the nuances of a single point of view. I was fortunate enough to be able to work with the immeasurably talented Kelley Mack, who was as invested in bringing this character to life as myself. A film and character that allowed me to explore my own anxieties and occasional depression - emotions only brought to more relevance as the isolation of the pandemic dragged on. Thus, My Own Silence was born.

Kelley Mack is an actress, voice over artist and producer who was born in Cincinnati, OH.
