MUNDANE

Logline

A group of teens, a trio of cleaners, and a conflicted young couple cross paths in a middle-class apartment, unraveling the hidden layers of social contracts.

Synopsis

In a middle-class apartment building in Jakarta, three distinct worlds collide. A group of high schoolers facing the chaos of love and adolescence; three cleaning service workers entangled in power relations and morality; and a young married couple grappling with disputes over social media behavior, struggling with communication. Their paths cross at a mundane moment—waiting in line in front of the elevator. This microcosm exposes the real face of social hierarchies.

Everyday social interactions have always been a fascinating subject for me. There were plenty of emotions, conflicts, and events that often went unnoticed or were easily forgotten, hidden beneath the veil of routine.

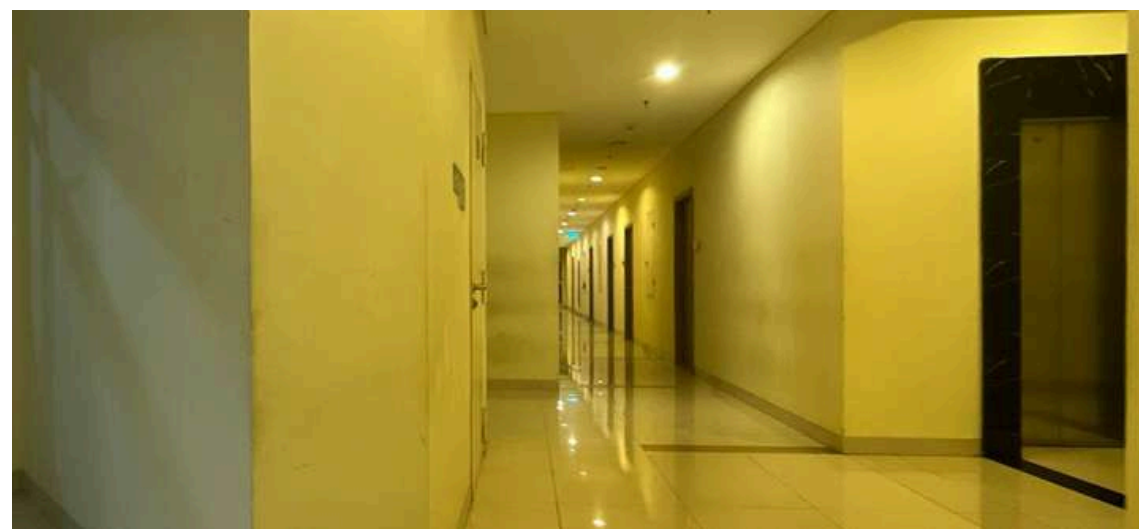

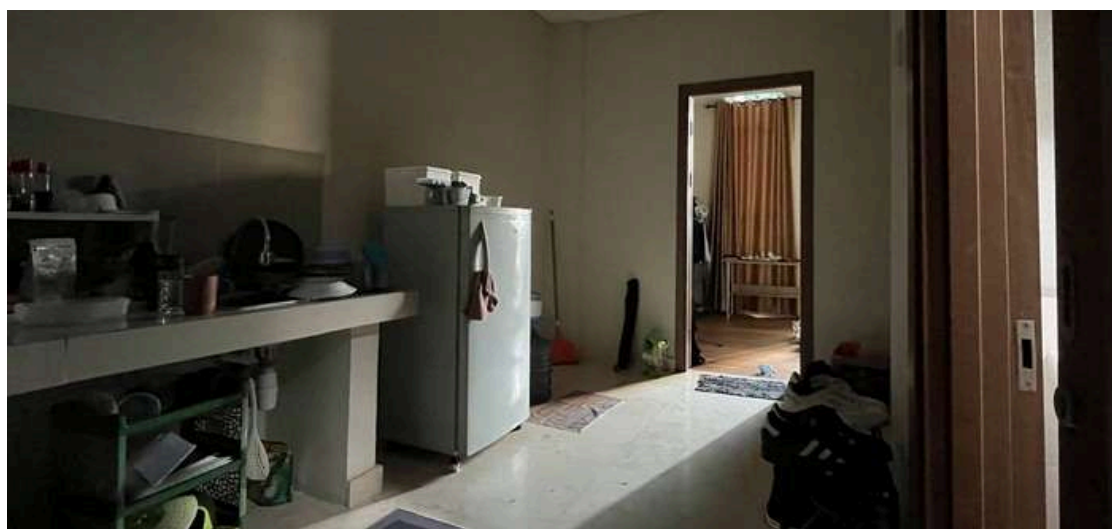

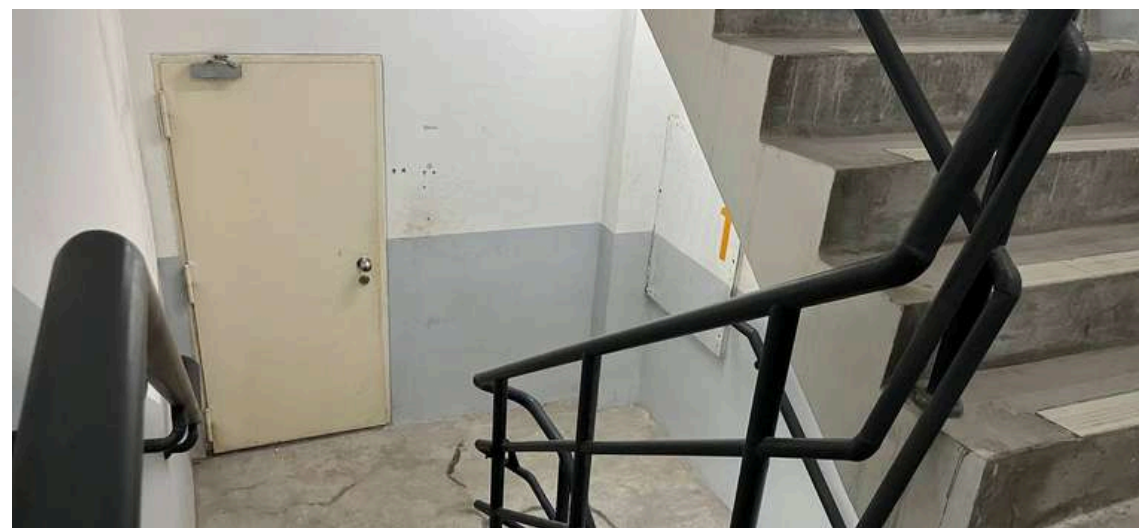

Through **Mundane**, I sought to explore the social conflicts that quietly simmered within the walls of a middle-class apartment complex. Here, residents, visitors, and employees behaved like zebras—camouflaged in the same stripes of normalcy, as though they lived without problems, functioning seamlessly and appearing perfectly fine.

But beneath this shared facade, what struggles did they carry?

Mundane was not only crafted as an artistic expression but also as a commentary on social contracts, class conflicts, and the quiet domestic politics that influenced our daily lives.

Director's Statement

Director's Treatment

This film consisted of four segments, each presented with a single static wide shot. The dynamics between characters were crafted to be as realistic as possible, aiming to make the audience feel like they were watching genuine social media footage rather than a film. This realism was achieved through meticulous choreography, character blocking, and natural dialogue timing.

Mundane was shot on real locations to further enhance its authenticity.

The use of off-camera dialogues and actions served as a signature treatment. This approach created spatial expansion (deframing) and invited the audience to actively engage their imagination in the cinematic experience.

Supporting Parties

MOMENTARIYA

Founded by Akarilalang Witharja (Aka Witharja) and Nabilla Arsyafira, Momentariya is an independent creative studio established in 2024. As a creative studio, Momentariya focuses on two main areas: film and podcast production. We craft stories through diverse creative approaches that are deeply rooted in the lives of Indonesian communities while maintaining universal resonance.

We are committed to positioning Momentariya's intellectual property as a cultural expression of popular products that significantly contribute to the advancement of the entertainment and knowledge industries, particularly in Indonesia.

Currently, we are initiating independent short film projects and actively participating in various funding forums. Additionally, we are in the development phase of a narrative storytelling podcast project with a journalistic approach.
