PREMIERE

10th April 2025 18:00 Dessauer Strasse // 3-5 10963 Berlin

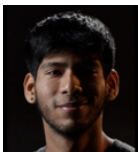

Filmmaking is a constantly-evolving art field, and the upcoming generations rarely have the opportunity to make themselves known to a broader audience, even though they are the ones meant to shape the future of the industry. By bringing forward some brilliant young filmmakers, the documentary aims to prove how their perspective is relevant and their voice deserves to be heard, in the hope that the viewers will become more interested in what the future generations bring to the table.
