EPISODE 01 SYNOPSIS

When a critical military exercise goes awry, threatening the future of the troubled Littoral Combat Ship program, young naval analyst Deirdre "Deedee" Simcik is unexpectedly given leadership over the project by her boss Rear Admiral Clark.

Deedee must work with the seasoned crew of the USS Independence, including the handsome but skeptical Captain Richards and the brilliant but crass contractor Mister, to turn the program around in a very short timeframe.

Through ingenuity and perseverance, Deedee is ultimately able to gain the respect of the crew and contractors and lead the LCS program to success in a pivotal live-fire exercise.
