## Overview

Philosophia is a luminous, unsilenced meditation from award-winning author and philosopher Timothy Bradley Reinhold. Written in one spontaneous evening, it is both a personal reckoning and a universal offering — part memoir, part philosophical treatise, part poetic act of truth-telling.

This is not academic philosophy. This is lived thought. It is philosophy with skin and scars and breath; the kind born in heartbreak, forged through love, and spoken in the night to no one in particular but the soul.

## Synopsis

Philosophia is not a treatise. It is a confession. It is a soul remembering itself.

At once deeply vulnerable and intellectually precise, the book walks the razor's edge between grief and grace, theology and intuition, solitude and resonance. Written in the voice of someone who has lost almost everything but still chooses to love - still chooses to speak - Philosophia reclaims the original meaning of the word: not as a pursuit of wisdom, but as a union between love and wisdom themselves.

This is the sound of a human being becoming a philosopher.
