

TITA

SINGER SONGWRITER

From a lifetime of devotion to music and years of being immersed in ceremonial spaces around the world, TiTA is now releasing original singles of her debut EP, solidifying her new signature sound.

Blending electronic elements, organic instruments and healing sounds with unique warm vocals, shaped by her Brazilian jazzy background, TiTA touches spirituality in modern days through the simple, yet profound messages in her lyrics.

Refining her call to share frequencies that touch hearts and souls and offering music that feels less composed than transmitted she invites listeners to dive into their consciousness while immersed in evocative & poetic audiovisual storytelling.

NEW MUSIC VIDEO BY TITA EVOKES A JOURNEY TO MYSTIC REMEMBRANCE

“An ethereal initiation — a mystical passage through light, reflection, and inner sight. Bathed in iridescent violet and silver tones, TiTA appears as a celestial oracle, holding a luminous pyramid that mirrors the awakening of divine perception. She weaves light language into the piece — a spontaneous, intuitive form of expression meant to convey emotion and energy beyond spoken words. The fluid, dreamlike landscape evokes a sacred pool of consciousness where each gesture, each shimmer of light, is a whisper of transcendence — a reminder that the Third Eye is not opened, but remembered.”

3rd Eye **official music video** is available on YouTube, iTunes Video, Spotify Video, Vevo Video and Boomplay. Directed by Flavia Lowenstein. Cinematography by Juan Azulay. Produced by Flavia Lowenstein and Juan Azulay.

By invitation, 3rd Eye (Official Music Video) was submitted to the 2026 Berlin Music Video Awards, Europe’s largest award in the segment.
