FRONTIER STORIES Directed by:

Eric Orton

Eric Orton is an award winning documentary filmmaker and passionate outdoor fish and wildlife enthusiast, known for crafting cinematic stories that connect people to the land and water.

A serene sunset scene over a large body of water, likely a lake or bay. The sun is low on the horizon, casting a bright, golden glow across the sky and reflecting on the water's surface. The sky is filled with soft, wispy clouds. In the foreground and middle ground, the silhouettes of forested islands and peninsulas are visible against the darker water and sky. The overall mood is peaceful and contemplative.

On the edge of the modern world, communities shaped by isolation, resource, ritual, and resilience reveal how they survive in some of the harshest and most culturally complex landscapes on earth.
