## LOG LINE

A girl encounters an other worldly entity through her television set with every click of the remote.

## SYNOPSIS

This is the short story of a pink puppet creature as she prepares herself breakfast, ready to watch her favorite television programs only to discover an otherworldly being haunts her television set.

## DIRECTORS' NOTE

"Gobbledygook" is an exploration of the surreal, heavily influenced by the writings of the "Surrealist Manifesto" and Sontag's "Notes On Camp". As filmmakers, we wanted to challenge conventional storytelling by having minimal dialogue and through the imagery, create a more visceral experience. The puppet character acts in place of the audience as they journey through this bizarre world. The idea stemmed from our experience as kids growing up in the 90s, sitting in front of a TV screen, being bombarded with images and more recently, our time in lockdown during the pandemic; trying to decipher various forms of media. We hope that viewers will find their own meaning of the film, and at the same time enjoy watching it.
