

Doghearted – Synopsis

English Synopsis

“ Doghearted ” is a cinematic AI-generated music video that explores human society through the emotional perspective of a stray dog wandering across urban Thailand.

Inspired by a cultural expression used to describe someone as cruel, selfish, or immoral, the film gradually reverses the metaphor, questioning whether humans may be far more inhumane than the animals they look down upon.

Through silent observation, the stray dog witnesses fragments of human behavior including greed, betrayal, violence, loneliness, and emotional abandonment.

Blending social realism with dreamlike AI-generated imagery, the project uses visual symbolism and emotional storytelling to reflect humanity back onto itself — through the eyes of something society considers beneath it.

Chinese Synopsis (Traditional Chinese / Hong Kong)

《犬之心》是一部具電影感的 AI 音樂影片，透過一隻流浪狗在泰國都市中的遊蕩視角，觀察與反映人類社會。

影片靈感來自一種用來形容殘忍、自私或不道德之人的文化說法，並逐漸反轉這個隱喻，質疑人類是否比自己輕視的動物更加冷酷無情。

在沉默的注視之中，這隻流浪狗目睹了貪婪、背叛、暴力、孤獨以及情感遺棄等人性片段。

作品融合社會寫實與夢境般的 AI 影像，透過視覺象徵與情感敘事，讓觀眾從「被視為低等存在」的視角重新審視人類自身。
