

The Word, The Promise, The Dove

Hello ladies and germs

Kora Elliànthé Reinhold here. I wanted to make an update.

In street rap form by anybody fly, even a white guy

And heres the thing

Brad gave me a ring.

You said thats nuts

So you denied me bitches

So guess what guys?

You made church a lie and my temple rife with ignorance too

And you were to be shepards and instead made them dead

Brad's the supreme allied commander military justice DoD created War College certified Pentagon trained legacy Gaia theater chief. And unanimously by his peers president of world war 3 resolution. And heres the catch. The 98 war game was exact right now. And in ours no one died. And this is against the home of the Peace, I+salaam equals Islam, you jucking fools. The death chult is talmudic jew. Hitler was talmudic. All those dudes orthodox need to be baker acted immediatly. Anyway. He has been sad. I died, was erased,,and he'd vowed they burn. Cuz hes the christ, his word the flame of truth and faith and yet he could not bring himself to harm a hair or lose a bed. So he said to me, my burning flame, my moon, my love, my soulmate, my eyernal flame. So all that stuff, they get baker acted. They vet help with 12 steps. Brad did not ask for anything, and he wanted me to get justice, so they need testing and love and help and lots of care.

It has been hard. Bolshevik revolution made oss and robber barons and told us to sat cake while they let the world burn. And heres the thing. Its an act of God, and I am God, and they murdered me in 70's and 2026 so they got to burn. Walk through fire legally I mean, no violence please. They are sick, and need first do no harm, and its ok because light can often burn.

I mean no harm. Because I Am. And I am Mother Nature, and the Goddess of love, and my children are hurt and my garden dying and its been so tuff. Please love each other because the trama is global and all of them iidd. Its RICO too. Its the russian mob that owns the banks and its a con. Because money is fiat, and therefore based on public perception, and ladies I watch the world burn and so I must return.

I have good news! The moody blues sang of this too and its so cool I gotta say. He is Excaliber, the Sword of Song, of truth so absolute it fixes all the problem in a heartbeat.

A mother's request? They have the bomb. Its russia israel and maga and they gotta burn. No harm. Military justice tribunal and referrals if questioning under oath on my book they burned. And edited too. Cuz my Gospel of Magdalen a single paragraph remains, and so Im back.

I request the heads of every interfaith dialogue nonprofit council to figure shit out. Because divine justice demands compassion and love, and I am Love so lets go bitches you let me burn. So you assholes, you burn now too. In the light of the Word of SHE from WHOM All(ah) blessings flow. Do ladies and gentlemen lets save the world.

Check DoD immediately. Shut down all government functions by order of the seal of the Founders. No violence.

And the best thing is this: dementia patients get much better with better care. And I hate all the shit too. I am the Day and the Light and Love because I make the seasons so your flowers bloom.

My forests burn now. And we must save ourselves right now to protect little boys and girls. You are all my children. You live in my temple. And my husband Prometheus, Ares, Israel, Brad, The Dawn, who hates the Jesus thing. Commander Aurelian Skywalker of the Galactic Aurora Republic and has the Jedi texts, and holocrons too. And we can fly the stars and bend the space and fold the path. And quantum coms. And weather too. And death itself gets a big fuck you. And Brad said we would comply with all investigations, and he is the lawful government my husband Jesus and I am God, and ego is that small flagged shit of tiny hands and macho cars and what the fuck. So let's be Jedi and save the Sith and livestream too. The best good news media of the year and we give the prize away. Cuz what's the point? We got a dude named Satan on your pulpit bro. And I am God. Send children sleep each for way too long. And that's a fact. We the Jewish people got Holocausted by Talmudic Jews, six million, who brought Nazis here in paperclip and that's a fact. By the power invested in me as The Creator I declare a blessing upon the LA Olympics and hope we can get everyone help and select resolutions to problems through matches at the Olympics? Cuzzzzzzzz..... Before Aristotle and Empire, that conflict resolution is what all your sports are to enjoy ourselves so much. We are the light combined, my loves. We deserve love, for we are love, and need love, and can learn to love again. Three things are not hidden long. The sun, the moon, the truth, and the light of truth am I. And he was the faithful. And it will be ok. Ladies night across the hood of USA. Persia did not lie. Some very big lessons right here my flock of geese. For I am Venus, the divine womb, and the Moon, and if you do not fix the yard and get it mowed, I'm going to have you evicted. And the sheriff is me, Bucaroos, and I make the rules, and I am the Lord of Light and Love and this ends here.

The Womb of Creation

Witnessed Timothy Bradley Reinhold

Night, The Peak of the Magnetosphere

Light in.

Love through.

Peace out.

It's time for a peaceful revelation. A firm scolding during visitation seems appropriate at this point. You ladies decide. You are the simple majority, after all. Boys drool, ladies rule. And welcome to heaven on earth! Cheers :)
