About the artist

xobehtedistuO is an AI enthusiast, futurist, and creator of courage-fueled worlds — the name is the phrase “outside the box” read backwards. The artist produces music, video, and visual art as one continuous work.

“On Lungs Alone” is the rare case where the AI voice is genuinely the artist’s own: a personally trained voice on Suno Studio 2.0, carrying the song close to the mic. Always think outside the box.
